

ITERATION

by *Jess H. Brewer*

December 7, 2021

Iteration (repetition, reproduction) is a powerful “Invisible Force” in science, art and life.

In Science, Reproduction = Confirmation

(See *Journal of Irreproducible Results* and/or my paper “Negative Muon Spin Rotation in This Paper” from 1982.)

In Art, Repetition → Inspiration

as in the iterative development of *Scores* and/or Francisco Fernando’s *tracings*.

In Life, Reproduction = Continuation

(Yes, *that* kind of Reproduction.)
